COMPANY PROFILE

Dowells is proud of being Pioneer & market leader in Terminal Technology with its accumulated experience in the line of manufacturing of cable Terminals, Connectors, Cable Glands, Crimping system & Accessories since 1961.

At present, Dowells Cable Accessories Pvt Ltd Company is a subsidiary of Polycab India Ltd., India's leading Cables & Wires company with a glorious track record of over 4 decades having their manufacturing facilities at Halol in Gujarat state having a measuring area of 1,00,000 Sq. ft with in house manufacturing facilities. This facility caters to more than 2500 line items with production capacity of 2500 metric tons per annum, with an aim to serve world's best technology for cable connections.

OUR VISION

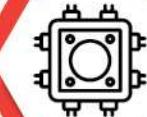

To solidify our leadership in Wire and Cable Accessories by investing in technology, boosting operational efficiency, and prioritizing customer satisfaction, while enhancing sales, services, and brand recognition.

OUR MISSION

We will create a great place to work by inspiring our people to continuously innovate and bring greater value to our customers and environment, thereby enhancing stakeholder value.

CONNECTORS AND LUGS FOR 2C,3C,3.5C & 4C SECTOR SHAPED CONDUCTORS

Designed primarily for solid or stranded sector shaped conductors for all angular arrangement of 2C,3C,3.5C and 4C cables. Dowell connectors allow a precision fit on the sector conductor, resulting in a perfect and a reliable connection. The connectors and lugs being sector shaped, it eliminates the process of rounding of sector shaped cable conductors. The design gives an optimum crimping quality with sector shaped dies, making it more reliable and trusted connection.

CABLE GLANDS

DOWELL's cable glands are available for armoured and unarmored cables and are designed for usage in oil and gas, petrochemical, construction, pharmaceutical, transportation, solar and mining industries, to name a few. Dowell's cable glands are available in Brass, Nickel coated brass, Tin coated brass, Stainless steel, Nylon and Polyamide. Dowell's glands provides excellent vermin proofing and protection to the cores of the cables.

CONNECTORS AND LUGS

DOWELL's is a pioneer in designing and manufacturing Solderless Electrical tubular connectors. These Connectors are crimped on to a conductor, to facilitate a termination or a straight connection with utmost reliability. These are designed with optimum ductility which is an absolute necessity for connectors that will have to withstand the severe deformation arising when compressed or crimped during the installation. The connectors are available in both aluminium and copper (Electrolytically tin plated to prevent oxidation), Bimetallic and Friction welded (CU to Al). Sheet metal terminals are also available as Ring, Pin & Fork terminals. Dowell corrosion Inhibiting compound is available to prevent oxidation on conductors surfaces.

TOOLS & ACCESSORIES

The extensive range of tools and accessories have been developed to offer the best equipment for crimping and preparing the connectors. Manual, Hydraulic and Electrically operated tools are available. These tools are specifically designed to match DOWELL'S connectors shapes and dimensions for ideal crimping and low resistance to obtain best performance and reliability.

FEATURES

- Increase in the contact surface area
- Reduces contact Resistance > 10%
- Drastic Reduction in hot spots
- Improved conductivity
- Better resilience against electrical and mechanical forces
